

Winnipeg - Moose Jaw – Regina - Calgary

FREE *ScalarWave* **GATHERING!**

LASERS

Meet the inventors, Paul & Lillie up close and personal!

Meet inventors of the Scalar Wave Soft/Cold Laser, the first of its kind using the world's newest cold laser technology combined with state of the art quantum scalar waves to address every facet of stress and muscle re-education.

Experience it Yourself!

ARE YOU READY TO ENTER THE QUANTUM ZONE?

We are excited and proud to announce that **Paul & Lillie**, the inventors of the Scalar Wave Laser, are coming to Western Canada for a 4 stop tour to share and provide further training with this exciting & revolutionary new quantum rejuvenation technology! SEATING IS LIMITED SO MAKE YOUR RESERVATION TODAY!

What does the Scalar Wave do?

The Scalar Wave Soft/Cold Laser rejuvenates the cells by gently donating energy in the form of photons. This increases the energy of the cells, which in turn stimulates the cell to grow more efficiently. This works in the same way that a garden works. Sunlight donates photons which in turn energizes the plants to grow bigger and healthier fruits and vegetables.

- | | | |
|------------------|------------------------|--------------------|
| Pain Relief | Immune Enhancement | Chakra Balancing |
| Healing Injuries | Organ Balancing | Nerve Regeneration |
| Anti-aging | Glandular Rejuvenation | Laser Acupuncture |
| Weight Loss | Lymph Activation | Laser Facelift |

What sets this cold laser apart from any other laser is its ability to unwind and clear cell memory.

To reserve your seat, please email your name, which city event, and #seats to Dianne Prentice at ability4health@sasktel.net or call Dianne at 306-692-0232 or 306- 690-8687(c).
